EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Allen Fanucci (Reg. No. 30,256) on September 29, 2004.

2. The application has been amended as follows:

At claim 1, line 2, --bonded-- has been inserted before "heterogeneous".

3. The following is an examiner's statement of reasons for allowance:

Claims 1-24 are allowed primarily because claim 1 requires at least the following limitations: annealing the bonded heterogeneous material compound at a temperature and time less than sufficient to cause detachment; and then irradiating the annealed compound to obtain detachment along the weakened zone. In other words, the method recited in claim requires a specific two-step process (i.e., the combination of an annealing process and an irradiating process) to separate the bonded heterogeneous material compound. The references of record, singly or in combination, cannot anticipate or fairly suggest "the two-step detachment process" as recited in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
